(data as at 31 December 2025)

Figure 4

Trend of bank branches by region
between 2024 and 2025
(percentage change; data as at 31
December of each year)

The geographical distribution of bank branches in Italy at the end of 2025 shows a major presence in the North representing more than 58 per cent of the national total (40 per cent in Lombardy, Emilia-Romagna and Veneto). Banks and Financial Institutions: Branch Network

Notice to Users

The *Banks and Financial Institutions: Branch Network* report is the first of the three new stand-alone specialized publications which replaced the Statistical Bulletin over the course of 2017. The new report will be published yearly and contains data on the geographical distribution of the banking and financial system.

Compared with its predecessor, the new publication features additional tables and more information on bank branches.

The report comprises 10 tables (1 of which only in the [Statistical Database \(BDS\)](#)), presenting information that was in part already included in the tables in 'Section A - Structural Information' of the Statistical Bulletin.

A more detailed description of the content of the report and of the sources used is provided in *Banks and Financial Institutions: Branch Network*, Bank of Italy, Statistics, [Methods and Sources: Methodological Notes](#).

The data on the number of branches provided in the report on *Banks and Financial Institutions: Branch Network* differ from those published at a given moment in the Supervisory Registers and Lists, because the latter are continuously updated while the data in the BDS are static. To download the full list of Italian bank branches for a given period, log on to the [Supervisory Registers and Lists](#) web page and click on 'Branches'. For the most recent list, click on 'Download Page'.

For the conversion between the old and new coding of the tables, see [Banks and Financial Institutions: Branch Network - new codes](#).

To facilitate the correct identification and interpretation of the tables, a map of the concepts illustrated in the report may be downloaded using the following [link](#).

* * *

We would like to inform all users that, starting from the March 2026 edition, the classification by bank size was updated.

Note: Since December 2014 specific information has been given on "bad finance" companies (previously included in the group of intermediaries engaged in factoring) and collective loan guarantee consortiums; this has resulted in a break in the series with the past. On 13 May 2016, following the reform of Title V of the Consolidated Law on Banking enacted through Legislative Decree 141/2010, the financial companies operating under Articles 106 and 107 of the old version of the aforementioned law were merged into the new Single Register, and the old specialized registers were discontinued. The group of intermediaries that engage in "Foreign exchange trading and other activities" includes conventionally also those that are authorized but not operational at the reference date. Payment institutions include foreign intermediaries with an Italian branch.
